SPECIAL ORDERS, } Extract
No. 235.

Leave of Absence for twenty days, is hereby granted Capt. A. D. Dail, 11 Regt. Missouri Inf. Vols. to proceed beyond the limits of the Department.

This Leave of Absence is granted under section 31, of an act entitled "An Act for enrolling and calling out the National Forces, and for other purposes," approved March 3rd, 1863, and will be noted accordingly, on the proper Muster and Pay Rolls.

BY ORDER OF MAJOR GENERAL U. S. GRANT.

Assistant Adjutant General

Extract from General Orders, A. G. O., War Department.

Any officer absent from duty with leave, except for sickness or wounds, shall, during his absence, receive half of the pay and allowances prescribed by law, and no more; and any officer absent without leave, shall, in addition to the penalties prescribed by law or a Court Martial, forfeit all pay or allowances during such absence. —*Act of Congress, published in General Orders No. 73, Series 1863.*

Officers absent from duty without leave or beyond the time of their leaves, will not be allowed to draw pay until a court or commission, which will be ordered on their return to their post or command, shall determine whether there was sufficient cause for their absence. They will accordingly provide themselves with a full description of the nature and cause of their disability, certified by the proper medical authority, as required by existing orders and regulations.

When an officer returns to his command after having overstaid his leave of absence, he may be tried by a court-martial for this as a military offense, or a commission may be appointed by the commanding officer of his division, army corps, or army, as the case may be, to investigate his case, and to determine whether or not he was absent from proper cause; and if there should be found to be such proper cause, he will be entitled to pay during such absence. The proceedings of such commission will be sent to the Adjutant General of the Army for the approval of the Secretary of War, which commissions will consist of not less than three nor over five commissioned officers.—*Gen. Order, No. 100, series 1863.*

The Military Secretary's Office,

WAR DEPARTMENT,

Washington, February 10, 1906.

It has this day (February 10, 1906,) been determined by this Department from the records that the above-named officer was mustered into service February 28, 1863, on an individual muster in roll of that date, and that so much of the record as shows him mustered in to date December 16, 1862, is erroneous.

I DO HEREBY CERTIFY, that I have carefully examined this officer, and find that he is suffering from Chronic Diarrhoea with Intermittent Fever & General Debility

and that in consequence thereof, he is, in my opinion, unfit for duty. I further declare my belief that he will not be able to resume his duties in a less period than Twenty Days and That Change of Location is necessary to save life or prevent permanent disability

Leave of Absence for twenty days to 2nd Lieut Davis Bailey on Surgeons Certificate

Headquarters, Department of the Tennessee,

Vicksburg Miss. Sept 14th 1863

SPECIAL ORDERS,
No. 242

Extract

On Surgeons' Certificate that change of location is necessary to save life or prevent permanent disability, approved by the Medical Director, Leave of Absence for twenty days, is granted 2d Lieut David Bailey A.R.Q.M. 11th Regt Missouri Vol with permission to proceed beyond the limits of the Department.

BY ORDER OF MAJOR GENERAL U. S. GRANT.

Brig General & Adjutant
Assistant Adjutant General

Extract from General Orders, A. G. O., War Department.

In time of War, Leaves of Absence will only be granted by the Secretary of War, except when the certificate of a Medical Officer shall show, beyond doubt, that a change of location "is necessary to save life or prevent permanent disability."—*Gen. Orders No* 61, *series* 1862.

So much of General Orders, No. 61, current series, as relates to the *extension* of sick leaves of absence is hereby revoked, and no applications for such extensions need hereafter be made. The order of the President, dated July 31, [General Orders No. 92.] fully explains what may be considered a good cause for absence. Surgeon's certificate of disability, required by existing orders and regulations, must be forwarded not only to the Adjutant General of the Army, but also to the Commander of the Regiment, or in case of a staff officer, to his Commanding General.

Officers absent from duty without leave or beyond the time of their leaves, will not be allowed to draw pay until a court or commission, which will be ordered on their return to their post or command, shall determine whether there was sufficient cause for their absence. They will accordingly provide themselves with a full description of the nature and cause of their disability, certified by the proper medical authority, as required by existing orders and regulations.

When an officer returns to his command after having overstaid his leave of absence, he may be tried by a court-martial for this as a military offense, or a commission may be appointed by the commanding officer of his division, army corps, or army, as the case may be, to investigate his case, and to determine whether or not he was absent from proper cause; and if there should be found to be such proper cause, he will be entitled to pay during such absence. The proceedings of such commission will be sent to the Adjutant General of the Army for the approval of the Secretary of War, which commissions will consist of not less than three nor over five commissioned officers.—*Gen. Orders, No.* 100, *series* 1862.

NOTE 1.—This blank will be used for both enlistments and reenlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed *clean* before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hæmorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexiæ, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

In the money package to day you will find two hundred dollars for Charles Baker this man has no parents as he informed me & wished to place his money in Bank. he is a green Country Boy & I have no doubt that if his money is paid to him when he is mustered for pay that it will be stolen from him I would be obliged if you would become the agent for him that he may not loose it.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of fire existing upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Cirsocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a case may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejections, the documents thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

Dear Sir -

Convinced by a long & earnest trial, of my inability to work the moral & spiritual welfare of your gallant command, in a manner to satisfy my own conscience, or the just demands of the Government, while the Regiment is in the active duties of the campaign - &

In consequence of a heavy domestic calamity, that has developed since I accepted the Commission of Chaplain in this Regiment, that makes it both cruel & unjust to remain longer from my stricken family, I feel bound in my honor & conscience to tender you my immediate & unconditional resignation

Hoping that this may secure your prompt attention, I remain with every sentiment of esteem

Yours very sincerely

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed *clean* before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of [illegible] a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested *of all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"In this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, is apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Recruits dismissed at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistment and re-enlistments—enlistment of veterans, &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

Sir:-

I arrest Elliston one of your men, took my horse from the Livery Stable yesterday, claiming him as a Government horse for the reason that he had been branded U. S. Said horse is my private property, and never to my knowledge belonged to the Government. I purchased him near two years since, and have had him in my possession, and rode him in the Army ever since

Said horse at one time broke loose or was stolen from a lot while in Tennessee & was branded by some men of a Tennessee Cavalry Regiment without my authority. I therefore respectfully request that said horse be returned.

Genl.

On the 6th inst. in compliance with General Order No 61 then in force. I forwarded a certificate of a resident physician for attention of leave of absence. attested by a Justice of the Peace. who certified that no army physician resided within the City. I at the same time forwarded one copy to the Lieut. Comdg the Dist. who decided the certificate was worthless. and ordered me reported Absent without Leave. Stating that he must have the certificate of an Army Surgeon, and would in no case receive a certificate from a resident physician. now is this decision right.

The nearest army physician is at Camp Butler seven miles. and he does not visit the City oftner (probably than once a month so he informed me, on the 22d inst. when I rode out in my carriage to be examined. Now the Government does not require impossibilities. The physician declares I was confined to my room. and unable to travel. The Justice of the Peace certifies that no army physician resides within the City. in compliance with the above order. therefore it was impossible for me to obtain the certificate of an Army physician, which certificate I did obtain. as soon as I was able to ride. which certificate you will (also find enclosed.

I would not have been so explicit had I not felt a just pride as I think)

in being placed right on the records.
having a clean record before. I had hoped
to serve my Country until This unholy
rebellion is crushed. and plead once more
restored, without one stain upon my reputation.

My application for leave of absence
must have been received before the 11th
the date of Order No 100. I do therefore
most respectfully petition. That my
leave be granted. or a special Order be
issued to relieve me from the disgrace
of a Courts Martial. or Court of Inquiry.
Earnestly soliciting a reply.

2. In the column headed "BOUNTY PAID" must be entered the whole amount not due a Bounty previous, in hand "BOUNTY DUE" the entire amount not due him. Bounty paid by recruiting officers, and not by the United States, will not be entered in this column.

3. Advance pay for horse equipments, or other public property, must be noted, and the proper sum retained or charged to each, specified, in the column for that purpose. Any fine imposed by a Court Martial, or indebtedness to the United States, must be entered under the proper head, and the amount already stopped must be acknowledged.

4. In every case of desertion, the date, and place of delivery, or apprehension, must be stated, and the authority for the same. A CERTIFICATE must be made, as dated, by the officer actually entrusted with the deserter at the time he was apprehended.

5. A descriptive list of the name of the soldier, and the company and regiment to which he belongs, must be carefully noted.

6. Recruits enlisted for the term of three years, or during the war, must be mustered into the service of the United States for the period of their enlistment, unless sooner discharged by proper authority. It will then be transmitted to the company commander of the soldier, who will enter at the date necessary to a full understanding of the soldier's account on the muster roll upon which the soldier's discharge is transported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the soldier's account may be settled when the company muster roll, and the soldier receives any pay or allowances that may be due him at the time of his discharge, and which may not appear on the final statements from the last Muster or Inspection. The account

9. When a soldier dies in Hospital or on detached service, his company (if he has one, should be sent with the final statements, in duplicate, to the Adjutant General, Washington, D. C.

10. Men drafted will be considered as mustered in from the date of their draft, and will be mustered for pay on the usual rolls for Volunteers. Their pay commences on the day they report for duty under their requisite from the Provost Marshal, which date should be noted on the first Muster Roll, under the heading of "Remarks." On the same line as the soldier's name, under the heading "Joined for Duty and Enrolled.—Commencement of Pay, Payment by Date," will be written the word drafted, or substitute, as the case may be, and under the heading "When Mustered in," will be given the date when the soldier was drafted, or, if a substitute, when enlisted; substitutes under the Enrollment Act, are mustered in by subsequent) enlist." Maj Genl J. C. Fremont

Sir— I this day received notice of Joseph B. Plummer, late Captain in the U.S.A. that he has been appointed by You Colonel of the 11th Regt Mo Vols, Accompanied by an order from You to assume the Command, this order I have obeyed, and I now appeal to you and beg leave to make you a plain Statement of facts relative to the organization and My Comeion with the Regiment.

About the Sixth of June last, I applied upon the recommendation of the Hon O. D. Filley and Hon John Howe of St Louis Mo, to the President of the United States for authority to raise a regiment of Volunteers for the term of three years which application was duly forwarded by Capt Saxton of the U.S.A. and through him I received by letter information that the authority was granted. In the meantime I was placed in Command by Brig Gen Lyon of Five Companies of Rifles and was Stationed at Rolla on the South west branch of the Pacific Rail Road. About the 20th July last I obtained of Gen Lyon leave of Absence for the purpose of raising this Regiment, On the 6th of August I had eight Companies Mustered into the 1st Mo Rifle Regt. Commanded by Col D Bayliss, which Regt has since been change by Special Order No 90, to be known as the Eleventh Regt of Mo Volunteers. I was not Mustered in at the same time, from the fact I had agreed with Captain Saxton to waive the Colonelcy in his favor he having written to me that he had received permission

to accept the Command which Commission was subsequently revoked.

Immediately after my Companies were mustered in I recvd orders from Gen Lyon to repair to this place with eight Companies of my Command & three Companies of the 9th Regt Mo. and two Companies of Sappers and miners of Col Bissells Regt. to the assistance of Col Marsh then Commanding this Post.

In all Communications from that date and those recvd subsequently I was recognized and known as Col of the 11th Regt Mo Vols. About the 14th of August if you remember I had a personal interview with you for the Purpose of obtaining your influence to have Captain Saxton placed in command of the Regiment. After failing in that I then waited two weeks, and was then appointed and mustered into the Service of the United States for the term of three years as Colonel of the Eleventh Regt Mo Vols.

In Testimony whereof I subjoin a Correct Copy of the Mustering officers Certificate.

Mustering Office
St Louis Mo Aug 28th 61

I certify that I have this day duly Sworn into the Service Col David Kayles Commanding 11th Regt Mo Vols. (Rifles) for the term of three years unless Sooner discharged — to date from appointment Aug 6th 61

Albert Tracy
Capt 10th Infy
Mustering Officer

my appointment was subsequently sanctioned by the Commissiond officers of the Regiment unanimously and according to genl order No 66 dated Washington 26th aug 1861 I am the duly Commissiond Col of the 11th Regt Mo Vols. for the period of three years unless sooner discharged. Muster Rolls have been duly mad out of the Companies, & field & Staff of the Regiment with my name at the head as Colonel

Genl I have been actively engaged in this issue, in its political bearing, and since the war began I lent all my aide and sacrificed all my Means in raising volunteers for the defence of my Country, and this Regt which I have raised at so much labor & cost, I had hoped after tendering the Command to my Personal friend Captain Saxton, and he declining to have Commanded in person; — there being no charges alledged or the slightest reflection on my Conduct Since I have been in Command of the Regiment I deem it due to myself and friends and to you to make this Statement feeling sure that you was laboring under the impression that the Position of Colonel was yet vacant, and that I was yet Lieut Colonel of this Regiment.

I appeal to you to say what is just, and due me and what Position you would have me occupy under all the Circumstances.

Very Respfy Your Obt Svt

Sir

In reply to Col. Davids Bayles' communication, I have the honor to state that I am quite confident Col. Bayles never received the authority of the War Department to raise a Regiment of Missouri Volunteers — Colonel Joseph K. Plummer received an appointment from Major General Fremont as Colonel of the 11th Missouri Volunteers; — the order to proceed to Cape Girardeau and assume command of that Regiment was signed by Col. Eaton, Aide de Camp & military Secretary — No Copy of that order was furnished me to be inserted in the order or letter book, kept in the office of the Assistant Adjutant General — I never refused to give Col Bayles a Copy of the order, nor stated to him that it was one of the Generals private orders. I did state that it was not in my power to furnish him with a Copy of Col. Plummers Order, and that he must apply to Col. Eaton or General Fremont. —

Very Respectfully

Your Obdt. Sevt.

FINAL STATEMENT

Pvt.

OF

Fredrick Bender

11th Reg't of Missouri

VOLUNTEERS.

Died Mar. 4 1865

NOTE 1.—*Two* of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with those certificates the Soldier is "entitled to" his *discharge*, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Sutler and Laundress must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for enlisted volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for time, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of *Veteran* or *Recruit Bounty* RECEIVED by the Soldier must be made on the back of each final statement.

ARTICLES OF WAR.

ART. 93. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1861.

DECEASED SOLDIERS.

PAR. 152. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 93d Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., will be sent with the inventories. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease; which report will be noted on the next muster-roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of ——— ———, late of company (—) ——— regiment of ———, who died at ———, the ——— day of ———, 186–." If a legal representative receive the effects, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

PAR. 153. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

PAR. 154. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the members and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of ——— ———, late of company (—) ——— regiment of ———, who died at ———, the —— day of ———, 186–."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before these inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, the money will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed *clean* before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hæmorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested *of all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hæmorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to [illegible] any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Recruits discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document, when completed, should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every [illegible] concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with, systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hæmorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks' Constitutional Syphilis, or other Cachexia, will find a place. If an Interpreter is employed during the inspection, that fact should be recorded. Many sometimes speak English very well when first examined who, from after conversations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Hence a defect may be detected at any stage of the inspection. Hence in such case it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon: in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

This "Partial Descriptive List" is given in order that the soldier may be discharged at once, without waiting for a descriptive list from his company commander; and, having been used by the proper officer to make out the soldier's final statements, should be endorsed with a statement to that effect by this officer. This endorsement should exhibit a full statement of the time for which the soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then transmitted to the company commander of the soldier, who will enter all the data necessary to a full understanding of the soldier's account on the muster roll upon which the soldier's discharge is reported. This list will then be destroyed. The object of this is, that the remaining portion of the soldier's account may be settled upon the receipt of these muster rolls, and the soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that the list is incomplete or "partial."

NOTE 1.

The company commander will here add a statement of all the *facts* known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the *facts* are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a *probable* case for *pension*, *special care* must be taken to state the *degree* of disability—as ¼, ½, &c., &c.; to describe particularly the disability, wound, or disease; the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1260 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates *direct* to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

SPECIAL ORDERS,
No. 140.

On Surgeons' Certificate that change of location is necessary to save life or prevent permanent disability, approved by the Medical Director, Leave of Absence for twenty days, is granted 1st Lieutenant L. Blew Co E. 11 Regiment Missouri Infantry Volunteers to proceed beyond the limits of the Department.

BY ORDER OF MAJOR GENERAL U. S. GRANT.

Jno A Adams

Assistant Adjutant General

Extract from General Orders, A. G. O., War Department.

In time of War Leaves of Absence will only be granted by the Secretary of War, except when the certificate of a Medical Officer shall show, beyond doubt, that a change of location "is necessary to save life or prevent permanent disability."—*Gen. Orders No. 61, series 1862.*

So much of General Orders, No. 61, current series, as relates to the *extension* of sick leaves of absence is hereby revoked, and no applications for such extensions need hereafter be made. The order of the President dated July 31, [General Orders, No. 92,] fully explains what may be considered as good cause for absence. Surgeon's certificates of disability, required by existing orders and regulations, must be forwarded not only to the Adjutant General of the Army, but also to the Commander of the Regiment, or, in case of a staff officer, to his Commanding General.

Officers absent from duty without leave or beyond the time of their leaves, will not be allowed to draw pay until a court or commission, which will be ordered on their return to their post or command, shall determine whether there was sufficient cause for their absence. They will accordingly provide themselves with a full description of the nature and cause of their disability, certified by the proper medical authority, as required by existing orders and regulations.

When an officer returns to his command after having overstaid his leave of absence, he may be tried by a court-martial for this as a military offence, or a commission may be appointed by the commanding officer of his division, army corps, or army, as the case may be, to investigate his case, and to determine whether or not he was absent from proper cause; and if there should be found to be such proper cause, he will be entitled to pay during such absence. The proceedings of such commission will be sent to the Adjutant General of the Army for the approval of the Secretary of War. Such commissions will consist of not less than three nor over five commissioned officers.—*General Orders, No. 100, series 1862.*
